

## DATA ENGINEER

Numberly is looking for a Data Engineer to join its dedicated team to Big Data and RTB.

As a Data Engineer you will:

- Create and maintain pipeline jobs that transfer client data to/from our database diverse infrastructure (Hive, MongoDB, ScyllaDB).
- Nurture our large Hadoop cluster, optimize distributed Data Operations and Storage.
- Participate in decision making concerning efficient & ethical use of data and technological evolution at Numberly.
- Work alongside Data Scientists, DevOps, and many other talented techs.
- Suggest your own technological solutions and try them out (our latest successful POCs include Apache Kafka and ScyllaDB) .
- Join a great multicultural team filled with wonderful people

### Qualifications

You :

- Like data in all its forms: raw, reworked, refined, calculated, analyzed, reused...
- Like work well done and pay attention to detail
- Dream of being able to develop and manage website databases with strong traffic
- Want to work with various, prestigious clients on different problems
- Are on the lookout for new languages/technologies and test the latest open source trends before others

You love the following stack ?

- Hadoop ecosystem (HDFS, Hive, Impala, HBase, ...)
- Apache Spark
- ETL (Apache Airflow or equivalent)
- SQL Databases (MySQL, SQLServer)
- NoSQL databases (MongoDB, ScyllaDB, ElasticSearch, ...)
- Apache Kafka
- Python, Java, Scala
- Git
- Linux

Even better if you know :

- Cloud Solutions (AWS, GCP, ...)
- API REST, WebServices
- Docker
- Kubernetes
- Apache Druid
- Data Science and Machine Learning
- Message Queuing (RabbitMQ, Celery, ...)

### **About Numberly**

Numberly, Marketing Technologist, puts data at the service of customer relations. The group enables companies to understand the needs of their prospects and customers as well as interact with each other in an efficient and relevant way.

With expertise in omnichannel orchestration, programmatic activation and conversational platforms, its experts develop and implement high-impact experiments.

With teams in Paris, London, Milan, Amsterdam, Dubai, Montreal and New York, Numberly operates in more than 50 countries: the international group has been expanding for almost 20 years. More than 500 employees contribute every day to quality customer satisfaction and execution, remaining curious, agile and innovative, a state of mind that drives Numberly.
